

ACOPTIC - FTTH - MCD1552

Compact Tube® micro-cables for blowing or floating through micro-ducts

BENEFITS

- Blowable through 8/10 (up to 72 OF), 12/10 mm (96 OF), 12/16mm (144 OF) micro-ducts
- Low friction resistance
- Variants available on request (colour code, fibre type, etc.)
- Quick and easy, this cable features Compact Tube® technology, which enables access to fibres without any special tools and avoids the risks of straw effect.

APPLICATIONS

- ACOPTIC® brings together ACOME's optical cables solutions for Telecom networks.
- The MCD1552 series offers a blowable cable solution featuring the benefits of Compact Tube® technology from 12 to 144 OF for installation in micro-ducts as part of access and collection network infrastructures.
