

ACOPTIC - COR1861

Pushable Optical Fibre Drop Cable for Subscriber Connection - Indoor
- LSOH - Dielectric - From 1 to 4 fibres

BENEFITS

- Low friction sheath to ease sliding into the duct
- Its small size (2x3mm) and stiffness make it perfect for congested ducts.
- Save time by avoiding the use of a draw-in needle
- Easily pushable

APPLICATIONS

- ACOPTIC® is the brand name for ACOME Groups optical fibre cable solutions for telecom networks.
- The COR range belongs to our solutions for connecting FTTH subscribers to the Network.
- Protected by LSOH sheath, they have excellent mechanical properties in terms of crush resistance and tensile strength.
- The COR1861 cables are used to connect the optical terminal to the communications box. These cables are lightweight and have optimised size.
- This cable is particularly suitable for duct installation by pushing

RECOMMENDATIONS

Storage and installation

- Cables are delivered with a covering for protection until they are required for installation.
- Guidelines for storage, transportation & cable installation can be found in our ACOPTIC guide.
